

# VERSASPEED RMC

EUCLID CHEMICAL

**RAPID SETTING REPAIR MORTAR  
IDEAL FOR SLOPED GRADES**

## FEATURES AND BENEFITS

- Great for repairs on sloped grades
- Meets ASTM 928
- Rapid-hardening
- Pre-extended
- Ready-to-use
- Can be coated 5 hours
- Excellent freeze-thaw resistance

## AN ADDITION TO THE VERSASPEED FAMILY

This is a fast-setting, single-component, cementitious repair mortar that is shrinkage compensated, pozzolan and microfiber modified, and contains an integral corrosion inhibitor. It is designed for horizontal and formed vertical and overhead structural repairs, and is uniquely formulated for use on sloped grades.

Ideal for a variety of applications, from parking decks to beam repairs, Versaspeed RMC delivers outstanding application and performance.
