

TWO-COMPONENT PRODUCTS

STATIC MIXERS & ACCESSORIES

EUCLID CHEMICAL

TM800 - Euco QWIKjoint Pump Static Mixer + TM801 - Euco QWIKjoint Pump Static Mixer Retaining Nut

- Used to attach to pump manifold when installing Euco QWIKjoint or Euco 700 using meter-mix pumps.

693Q 25 - Euco QWIKstitch Needle Kit

- Used to attach to 22 oz. Euco QWIKstitch cartridges, when a very narrow-tip nozzle is required for hairline cracks.

693Q 22 - Euco QWIKstitch Static Mixers

- Standard static mixer/nozzle included with 22 oz. Euco QWIKstitch cartridges. Includes required flow restrictor plug inside the cap on the threaded end of the mixer.

TM9009 - Quad Static Mixer

- Standard static mixer/nozzle included with cartridges of Euco QWIKjoint products, Dural 452 epoxy products, and Dural Fast Set epoxy products.

TM90051 - Surface Mount Injection Port

plug inserted/assembled (left), disassembled (right)

- An injection port that is mounted to the surface using Dural 452 Gel or Dural Fast Set Gel, centered over the crack, to facilitate injection of low viscosity epoxy into the crack. Includes a plug to close the port after injection is complete.
